

# QUEEN OF NORTH SHORE

Solange Porter never believed her husband, Emeril would betray her. But he did. First, he died when he promised they'd be together forever. Then, he left her as the head of a tech company that she didn't want to lead. She wasn't alone; most of the staff felt the same way.

Computer programmer Wale Adisa needs Solange's help. To get it, he will share a secret that Emeril never revealed to her. This secret will not only increase her feelings of betrayal. It may also place a target on her back that could ruin her and the company she's trying to save.
