

AT THE TOUCH OF LOVE

About the Book

Best friends Echo and Telia are really experiencing some "interesting" times.

Echo received a call on her twenty-first birthday that changed her life forever. Fourteen years later, she gets to add a pink slip to her birthday confetti. She wishes the calendar would skip over this particular day because her mental state won't tolerate one more tragedy. And then the phone rings with news that signals another ungranted birthday wish.

Dr. Daniel Ellington's touch provided the electricity that pumped Telia's heart. However, an accident spared the lives of their children but left his hanging in the balance. Now, Dan's mother has descended on Telia, determined on securing control of his inheritance and heirs using every weapon in her arsenal. Fighting to keep her man, children, as well as her sanity may take everything Telia has, including her life.

As Echo and Telia are thrown into the chaotic fray that is their lives, they soon realize that happy endings are only promised in fairytales.

*Psychological Thriller
With A Fairytale Twist*
