

SWEET WHISPERS OF THE DEVIL

About the Book

Victoria Hill's son is missing—her worst nightmare realized. A nightmare made even more terrifying because, he's in the hands of her father, a bounty hunter intent on connecting with his relations regardless of their attempts to escape his grasp. While Victoria's mother, Honey, had changed their identities and moved from place to place to stay safe, she couldn't prevent Victoria's own kidnapping. Instead, she was forced to sacrifice everything she had to keep Richard at bay.

Now Honey's dead. And daddy's come calling. Again. With the help of an ex-lover and his mother, it's Victoria's turn to make the decisions that could mend her family, save her son, or send Richard over the edge. One problem. The decisions could also force Victoria to change the game in a way that sends them all on a slide straight down into her father's particular brand of hell.
